

Feral Power

Sassy, a member of Tom Cat's Colony, Scott, Louisiana. 101 Cats TNR'd.

It is with great regret that we announce the ending of our partnership with a local animal welfare group that subsidized our Feral Power program. We would like to express deep gratitude to our associates for their years of financial support as well as to the thousands of caregivers who participated in Feral Power. Our collective efforts resulted in the Trap-Neuter-Return of an amazing 6,915 community cats in five years.

With Feral Power's inception, WildCat Foundation has consistently supported a portion- and in some cases the full-cost of each feral cat in the program. While we are saddened by the end of the Feral Power partnership, we are also relieved to announce that WCF will strive not only to keep Feral Power alive, but to work towards its growth. We look forward to hearing more from dedicated caregivers and, together, continue diligently serving the community and its community cats.
